

Company Aviation Safety Officer Workshop

How You Will Benefit

CCAA created a series of skill development workshops referenced to address specific regulatory requirements for air operators and aircraft maintenance organizations focusing on the skills required by individuals in position of operational control.

This workshop will be beneficial to for participants carrying out the responsibilities of the safety manager in a company and meets the requirements of CAR's 705.153, 573.06(8) 302.505. This course will also be of interest to any operation managers that require the Company Aviation Safety Officer's (CASO) course to meet the requirements of CAR's 723.07.

Workshop Description

This one day introductory CASO course is designed to familiarize the candidate to the various roles, responsibilities and duties of a Company Aviation Safety Officer. The workshop will prepare the candidate to work within a company's Safety Program. Content covered in the course includes:

- Safety Management Systems
- Occupational Health and Safety
- Human Factors awareness
- How to establish a safety program
- How to establish communication and reporting structure
- Emergency Response Plans
- Unscheduled/Accident/incident event management

Participants will benefit from a deeper understanding of the various aspects of safety management systems including how to better develop, manage and assess effective safety management within their operations. While this workshop meets Transport Canada requirements for the Safety officer, participants are encouraged to supplement their knowledge through supporting skills development products such as:

- Canadian Aviation Regulations (CARs) Online Course
- Human Factors Online Course
- Aviation & Aerospace Manager Online Course – Level I
- Quality Systems Auditor Workshop
- Quality Assurance Manager Workshop

This workshop along with the Quality Assurance Workshop can be referenced to the applicable CCAA occupational standards for certification purposes.

Intended Audience

Operations managers; Safety Officers; Safety Managers
